

## GET FURTHER

Getting students ahead in further education

### MATHS CURRICULUM MANAGER

Without GCSE English and maths, young people are more likely to drop out of education and are locked out of many university courses, apprenticeships and key professions. This is a huge challenge for social mobility in our country.

We want to change this story. Get Further is the first charity dedicated to providing free, innovative tuition to young people who missed out on gateway English and maths GCSEs at school. Our tuition is delivered by subject-specialist graduates, who are trained by expert English and maths teachers. Students who complete the programme join our alumni network, where they are signposted to opportunities and receive support with the transition into higher study and work.

We are seeking a qualified maths specialist with the teaching expertise and subject knowledge to oversee the delivery of our maths curricula and training programmes. This includes designing and delivering new training modules to our maths tutor trainees, observing tutorials and providing tailored feedback to ensure tuition sessions are as effective as they can be. It also includes overseeing the delivery of our innovative and pioneering GCSE maths resit curriculum, to maths teachers within the further education sector.

Get Further was founded in 2018 and is a winner of the Teach First Innovation Award. As a new education charity, this role is a fantastic opportunity for someone who is both passionate about tackling educational inequality and looking for work that offers considerable responsibility over a core function for the charity. By working for Get Further, you will play a critical role in helping young people in further education get back on track after the disruption to from COVID-19.

**CONTRACT TYPE:** Fixed term contract – 12 months, with possibility of extension

**LOCATION:** The role is a mix of home-based working and some travel to Get Further's partner colleges and our office in London (once the lockdown ends)

**HOURS:** Part time (2 – 3 days per week)

**SALARY:** £33,350 - £39,350 pro rata, (plus London weighting allowance of £3,000 per annum, if applicable)

**START DATE:** August

### JOB DESCRIPTION

- You will lead the design and delivery of our maths tutor training programme, including new modules to support the effectiveness of tutors on the programme.
- You will implement our innovative GCSE maths resit curriculum, acting as the point-of-contact for teachers in our partner colleges, running training to support their delivery of resources, and ensuring they have access to lesson materials.
- You will provide tailored feedback on delivery for both maths tutors and teachers in our partner colleges, to ensure impact from our tuition and curricula, and identify opportunities where our curricula and resources can be further improved.
- You'll receive ongoing support, professional development and networking opportunities to advance your career, alongside building skills in curriculum and Continuing Professional Development (CPD) design, project management, and programme delivery.

## GET FURTHER

Getting students ahead in further education

- Get Further's core benefits include 28 days' holiday plus bank holidays (pro rata for part-time roles), flexible working and employer contribution to pension.

### CORE REQUIREMENTS:

- Qualified Teacher Status (or international equivalent)
- Experience of teaching GCSE maths for a minimum of 2 years
- If successful, you'll need an up-to-date DBS Check

### DESIRABLE REQUIREMENTS:

- Experience of delivering training to adults
- Experience of working in post-16 / further education

### PERSONAL SPECIFICATION:

- You'll be able to demonstrate the drive and commitment to making a difference in education, including a track record of building maths skills and improving results for learners.
- You will be an excellent communicator, and be able to demonstrate that you can create effective teaching and learning resources and convey complex information in a clear and engaging manner.
- You'll have fantastic attention to detail and an exceptional knowledge of research-led strategies in maths teaching and curricula design, alongside a commitment to high expectations for all students.
- You'll be able to demonstrate that you are professional and resilient, with a clear level of insight and understanding into the challenges facing students in further education today.
- We're looking for team players. You'll be able to demonstrate an aptitude for building and managing relationships with colleagues, teachers and tutors at our partner colleges.
