Getting students ahead in further education

### PROGRAMME COORDINATOR RECRUITMENT PACK

#### Our Mission:

Without GCSE English and maths, young people are more likely to drop out of education and are locked out of many university courses, apprenticeships and professional roles. This is a huge challenge for social mobility in our country. We know that having a tutor can help to close gaps in education – but too often, this is out of reach for young people from disadvantaged backgrounds studying in further education.

**We want to change this story.** Get Further is the first charity dedicated to providing free, innovative catch-up tuition to young people who missed out on gateway English and maths GCSEs at school. Our tuition is delivered by high quality tutors, who are trained by our expert English and maths teachers. With the disruption to education from COVID-19, now, more than ever, many students are in need of extra help to address the learning they have lost. This year, we want to help more students than ever to get back on track in education and have greater opportunities for progression in their chosen career.

We are seeking a driven and passionate Programme Coordinator, who will be responsible for the delivery of our tuition programmes across our partner colleges. We are a fast-growing charity so this role is a fantastic opportunity for someone who is ambitious and passionate about improving social mobility and tackling educational inequality. It will be of particular interest to someone wanting to gain knowledge and experience of the education and charity sectors.

#### Our Team, Culture and Benefits

Our central team comprises some 14 members, all motivated to reduce educational disadvantage and ensure young people get the gateway qualifications they need to succeed. We currently employ around 70 active tutors. Our main office is in Notting Dale, London, although we also have team members based in Yorkshire and elsewhere. We share our office with [Ark](#) and its [ventures](#). We promote a supportive, collaborative and positive working environment.

As well as the perks of unlimited tea, coffee and free fruit when in the office, we enjoy:

- 36 days of holidays per year (including bank holidays)
- ongoing learning and development opportunities
- flexible hybrid and remote working, with 2 core in-office days for London-based team members
- quarterly 'in-person' team development days at our offices in London
- the joy of working in a progressive and socially conscious, growing organisation where we can have an outsized impact on its success and development.
