One in three students leave school each year without a standard pass (grade 4 or above) in GCSE English and maths, representing over 200,000 16-year-olds every year. **This rises to over one in two for young people from disadvantaged backgrounds.** The scale of the challenge at 16 extends into adulthood. An estimated 8.5 million working age adults in England have low literacy and numeracy skills. Lacking gateway qualifications locks people out of many opportunities for education and employment and is associated with adverse outcomes for learning potential, health and well-being.

Get Further exists to change this. Our charity delivers a series of interventions that help disadvantaged learners in Further Education to secure gateway English and maths qualifications that unlock opportunities. These interventions include our award-winning GCSE Resit Tuition Programme, for those resitting GCSEs, our Functional Skills Tuition Programme, supporting those on or aspiring to undertake apprenticeship programmes, and training and resources to support teachers and leaders of English and maths in Further Education. You can read about the impact of our interventions [here](#).
